

I am a flight attendant for United Airlines. It is crucial that cell phones are not allowed to be used in flight. Above all other reasons, people are rude... People in any given situation think only of themselves. Giving those individuals yet another avenue to bother those around them. It is unfortunate, but true... Please don't allow this door to open... We already have to deal with other petty situations, I don't want to have to break up fist fights over someone talking too loud on their phone or talking the whole flight. It is unsafe for crew members, as well as, other passengers. It is equivalent to being overserved. Please consider everyone's safety and sanity while making these decisions.
